01-02/06/2022

PVA EXPO PRAGUE

## INVITATION FOR EXHIBITORS

ORGANIZER

**CHEMAGAZÍN**

VENUE

[WWW.LABOREXPO.EU](http://WWW.LABOREXPO.EU)

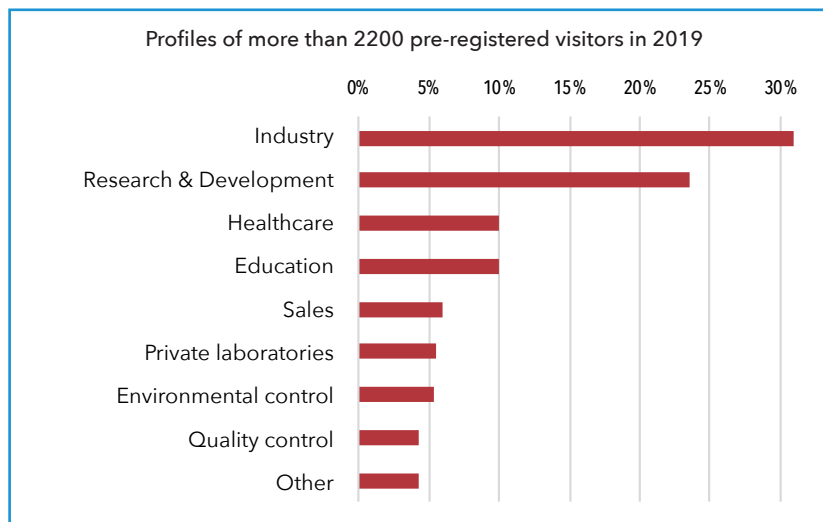

## ABOUT THE EVENT

**LABOREXPO** trade fair is the most important event for the field of analytical, measurement and laboratory equipment in the Czech Republic – held only once every two years. A wide range state-of-the-art devices as well as process analytics of leading domestic and worldwide producers are presented during two days in the Prague town.

Exhibitors are invited to attend the trade fair which is the only domestic trade fair event focused on the area laboratory technology to find appropriate business partners for the Central European market or present own products and look for a new clients.

More than 90 exhibitors and 1500 visitors are expected.

## VISITOR STRUCTURE

## VENUE

**PVA EXPO PRAGUE** is the most modern and the largest exhibition center in Prague, the capital of the Czech Republic. This multi-purpose venue hosts not only trade fairs, but also exhibitions, conferences, sports events, concerts, theatrical performances or parties. State-of-the-art technologies and AV equipment, top-quality services, easy access and a large-capacity parking lot are only some of the advantages of the venue.

**LABOREXPO** trade fair will be held in Hall 2 with possibility of 4,000 m<sup>2</sup> interior exhibition area and outdoor places too. Connections of water, electric current, compressed air, telephone and wi-fi internet is accessible on the floor.

The exhibition centre provides all necessary conveniences, such as restaurants, coffee places, cloakrooms, rest areas, press centre, business centre, or comfortable conference rooms.

## NOMENCLATURE

## EDUCATION, ENTERTAINMENT AND COMPETITIONS

**Product presentations & workshops** - the LABOREXPO fair will provide not only a place to get to know the wide range of services and products and their suppliers, but also other accompanying educational and entertaining events. Many exhibitors invite to present new laboratory methods, instruments and laboratory equipment.

**Mobile laboratories** - traditionally, so-called Mobile laboratories expositions have been installed on the outdoor exhibition area in front of the main entrance to trade fair floor. Even in these places, visitors can test their own samples or view an interesting outdoor stands.

**Virtual exposition** - the possibility of visualizing the exposition and converting it into a virtual form on the fair's website.

**Competitions and entertainment** - other accompanying activities include the competition of exhibits „*TOP PRODUCT of LABOREXPO 2022*“ in the categories Analytical Technology and Laboratory Instruments & Equipment. The competition aims to draw attention to the equipment and technology representing innovative advances in instrumentation and laboratory equipment presented at the fair. Visitors will can interact with all the exhibits in the competition on exhibitors stands.

Every visitor who surrenders **free ticket** can participate in a Ticket for prizes. The main prize dedicated to the organizer and other gifts from exhibitors will place the prize in the draw.

On the second day of the fair (Thursday) will be possible to simultaneously visit the **Science Fair** organized by the Academy of Sciences of the Czech Republic - [www.veletrhvedy.cz](http://www.veletrhvedy.cz) - at the next-door Halls 3 and 4 of the PVA EXPO PRAGUE. This is the largest popular educational event in the country. Through interactive exhibits, models, laboratories and practical workshops, it offers the most interesting from the world of natural, technical, humanities and social sciences. More than 30,000 people visited the last show in 2019.

## BOOTH CONSTRUCTION

**LABOREXPO** exhibitors have different options how to design and implement their trade fair expositions. They can contact their own supplier or order this service from the trade fair organizer. The standard expositions are primarily built using the proven Octanorm system that allows the construction of stands at an affordable price from 40 €/m<sup>2</sup>. The trade-fair organiser uses the services of a certified constructor and also offers the construction of atypical expositions which accept all requests for the design, functionality and creativity.
